Présentation

Nestled in the heart of the Holy Land, in the sought-after village of Mies, this exceptional villa stands out as a true architectural masterpiece, combining contemporary lines, absolute refinement and a soothing atmosphere. Built in 2020, the property boasts more than 2,000 m² of living space and rare features. It includes nine bedrooms, ten bathrooms, vast reception areas with living and dining rooms, two fully equipped kitchens, a fitness room, a spa area, a home cinema, several lounge areas and an underground garage for up to ten vehicles. Every detail has been carefully considered: noble materials, impeccable finishes and exceptional aesthetic choices, such as the Italian marble in the bathrooms or the leather covering the walls of the bedrooms and living areas. Bathed in light and generously dimensioned, the villa offers an immediate sensation of comfort and intimacy, evoking a veritable cocoon of well-being. The exteriors match the elegance of the interior. A vast terrace, organized into three distinct areas, revolves around the jacuzzi, the pool and a space dedicated to relaxation and alfresco dining. Set on a plot of over 7,000 m², perfectly south-facing, the property enjoys optimum sunshine all day long. Ideally located between Geneva and Nyon, Mies is one of the most sought-after villages in the Holy Land. Its privileged living environment combines nature, calm and excellent accessibility. Just fifteen minutes from Geneva and its airport, the village is perfectly served by public transport and major roads. It boasts a modern infrastructure on a human scale, including an elementary school, crèche, sports facilities and a dynamic community network. Discreet, sought-after and resolutely elegant, Mies offers a rare balance between gentle living and urban proximity. An exceptional place, chosen for its quality of life, the charm of its environment and the serenity it provides. Parce que chaque client mérite un royaume
