A home designed for living, entertaining and relaxation

Collonge-Bellerive

Prix : Prix sur demande

Présentation

Behind its elegant contemporary architecture lies much more than just a house: it's a real home, designed for comfort, sharing and serenity. From the very first moment, the light, spaciousness and warm atmosphere set the tone. Spaces flow naturally into one another, creating a living environment that's as pleasant for everyday living as it is for entertaining. The open kitchen with its central island quickly becomes the heart of the home, a place where people gather and where moments take on their full meaning. Designed to make the most of every moment, the house also features areas dedicated to relaxation and leisure: a home cinema for evenings out with friends, a wellness area and gym for pampering yourself, and convivial rooms for sharing family moments.

Outside, the enclosed garden and terrace offer a quiet interlude in a verdant environment, inviting you to enjoy the sunny days in complete privacy.

Built according to the Minergie® energy label, the property combines performance, modern comfort and quality amenities, in a spirit that is both elegant and functional.

Just a few minutes from Geneva and in the immediate vicinity of schools, shops and transport, this home combines all the advantages of a privileged living environment.

A great place to live, designed for those looking for more than just a house.
