Présentation

Discover Mille52: an exceptional residential project made up of 65 new apartments, from 1.5 to 5.5 rooms, designed to meet all lifestyles.

Located in a green environment, this district with neat landscaping designed for well-being is spread out through 6 buildings on a human scale. It offers bright accommodation, opening onto generous outdoor spaces (balconies, terraces or gardens), in a quiet and privileged setting, only a few minutes from the centre of Lausanne.

Designed according to the Minergie-P standard, Mille52 guarantees high energy performance and optimal comfort in everyday life. Thanks to the innovative Homsphere concept, residents become actors in their consumption, by taking advantage of local, intelligent and controlled solar energy.

The finishes are customizable, allowing everyone to create an interior in their own image.

Between contemporary architecture, quality of life and sustainability, this project embodies a new way of living: more responsible, more connected and resolutely turned towards the future.

From CHF 490,000
