House for sale in Chêne- Bougeries, Switzerland

Chêne-Bougeries

Prix : Prix sur demande

Présentation

This new detached house features an architecture that transcends trends, both contemporary in its lines and classic in its elegance. Designed according to current energy standards, it offers a living environment as comfortable as it is sustainable. From the entrance, the house reveals beautiful volumes and a bright atmosphere. Large openings allow natural light to flow in and extend the spaces towards the garden, creating a sense of space and fluidity that is particularly pleasant in everyday life. The living room, generous and convivial, naturally becomes the heart of the house. The sleeping area includes three comfortable bedrooms as well as bathrooms. In the mezzanine, a fourth independent bedroom allows hosting family and friends in complete tranquility, or setting up an office or leisure space, slightly separated from the main area. Outside, the garden extends the house and invites you to enjoy a peaceful environment, free from any nuisances. A bright, balanced, and easy-to-live-in house where the elegance of volumes meets the requirements of comfort and energy efficiency today. Parce que chaque client mérite un royaume
